

DRINKING WATER NOTICE

Kittery Water District
PWS ID #ME0090790

Our Public Water System Has Completed an Initial Service Line Inventory
We have found/identified Lead Service Lines, Galvanized Service Lines Requiring Replacement (GRR) or Unknown Service Lines (where we do not know what the line material is).

During the initial service line inventory that was completed on October 16, 2024, Kittery Water District has found/classified some service lines within our water distribution system as either lead, galvanized requiring replacement (GRR), or as a lead status unknown service line (material of line not known).

If your address is being served by a lead, galvanized requiring replacement (GRR), or a lead status unknown service line you will receive additional notification information.

WHAT WAS FOUND:

Service Line Material Found Within Our System: *(Check all that apply)*

- Lead-** A portion of pipe that is made of lead, which connects the water main to the building inlet.
- Galvanized Requiring Replacement-**Galvanized steel service line that is or was at any time downstream of a lead service line or is currently downstream of a "Lead Status Unknown" service line.
- Lead Status Unknown-** Service line material is not known to be lead, galvanized requiring replacement, or a non-lead service line, such as where there is no documented evidence supporting material classification.

HOW THIS WAS DETERMINED:

Verification Method Used to Determine Service Line Material: *(Check all that apply)*

- Field Inspection by PWS
- Records Review
- Statistical Analysis
- Customer Self-Identification
- Other(s) Maine Drinking Water Program -Approved Method(s):
___Non-Lead Categorization due to changes in the Plumbing Code of 1986 – services installed after 1989 or newer were classified as non-lead

SERVICE LINE INVENTORY CERTIFICATION:

By signing below, you certify that 1) the information within your service line inventory is true, accurate, and complete to the best of your knowledge and 2) you the person duly authorized to complete and submit the service line inventory to the Maine Drinking Water Program.
